

Features of Business DropBox

Flexible storage plans

Choose the right plan to ensure your team has the space it needs to be productive.

Link permissions

Password-protect your links, disable downloads, or set expiration dates to grant temporary access.

Admin dashboard

Monitor team activity, view connected devices, and audit sharing activity.

Remote wipe

Clear files from lost or stolen devices to keep company files in the right hands.

File and version recovery

Easily recover deleted files and restore previous file versions.

Dropbox Paper

A simple, powerful way to create, share, and keep your team in sync — with the added benefit of admin controls.

Account transfer tool

Easily transfer files from one user to another when responsibilities change.

Third-party app integrations

Extend the power of Dropbox with over 300,000 [connected apps](#).

Team folder manager

Get visibility and control over team folders, including sync management.

Smart Sync

Access every file in their Dropbox, right from their desktop, using very little hard disk space.

Dropbox Showcase

Present work in a professionally-packaged page and track who engages with your files.

Live support

Quickly get answers to your questions via priority phone, email, and chat support.
